What brought you to Happy HR?

I was finding it hard to keep track of staff. We are also required to have policies etc for audit. Happy HR was recommended to me although I did look at competitors also.

Why did you choose us over other providers?

I ultimately chose Happy HR as it seemed nice and compact, easy to use, compliant and well priced.

When going through the initial demonstration and consultation process, what stood out to you as something that would really help your business?

Compliance which we require in regards to policies etc. Staff management. The end of year audit of our college requires compliance and now it is easy to manage.

If we had to narrow it down to just one thing, what was the most appealing part of Happy HR for you?

The knowledge we are always compliant as Happy HR looks after policy updates when legislation is updated.

How did you find the setup process with our HR team? Did they give you peace of mind around your HR compliance?

Yes, everyone I've dealt with at Happy HR has been very helpful. Very knowledgeable and fast to respond with correct HR information. The more you use Happy HR the easier it becomes and the more features you find.

How is are the HR operations and processes in your business now compared to before Happy HR?

Well, we didn't have a HR system before Happy HR. Everything was manual and either paper based or digital but not all in once place. It's much easier to manage this way and we can just show our auditors the system and they know we are compliant.

If there was a business out there that knew they needed work on their HR compliance and processes, what would you say to them about Happy HR?

Happy HR will save you time and stress. Their team will help with what ever you need ongoing and they are quick to respond. You will have peace of mind that you will be compliant and you don't need to manage compliance for contracts and policies because HHR has that covered.

Is there anything else you'd like to add?

Just that I have reached out for help and advice on Awards and levels and the advice I received was helpful and fast.
